

Welcoming

a sustainable approach to merchandising

Introducing the next generation of full-sized grocery merchandiser, True's retail Merchandiser (TRM) is an advanced self-contained cabinet built for large storage capacity and exceptional product display.

The TRM refrigeration system is charged and sealed at the factory using refrigeration R290, a natural, environmentally friendly future proof refrigerant.

Design

- True's commitment to using the highest quality materials and energy efficient refrigeration systems provides the user with colder product temperatures and lower utility costs.
- Take advantage of the install flexibility, convenience, and efficiency of this self-contained case. Fit TRM's through doorways, move the case into location, install the compact sealed condensing systems and plug it in. No refrigeration connections or technicians needed for install.
- Available in 2,3, and 4 door models, the TRM's are ideal for multi-door case lineups, end cap placements, and general refrigeration storage applications.
- The entire cabinet structure is built using high-density, polyurethane insulation that has zero ozone depletion potential.
- Refrigeration redundancy architecture helps prevent product loss.

Refrigeration System

- With the R290 Natural Refrigeration system, TRM is exempt from changing state and federal regulations.
- Environmentally friendly R290 Natural Refrigerant system.
- Self-contained factory-charged and sealed refrigeration system.
- The True Dynamic Refrigeration Response System allows for quick product pull down where and when cooling demand is needed.
- DOE and Energy Star approved.
- This unit listed under NSF/ANSI standard 7 for the storage and/or display of packaged products only.

Accessories

- Peg-bar shelf for organized display of hanging products

FEATURES

Electrical

- Unit completely pre-wired at factory and ready for final connection to a 208-240V-1PH-60Hz, cord and plug set included.

Innovation

- Reverse condensing fan motor (RCU) technology helps prevent condenser blockage.
- Patented True Level leveling systems for a quick install.
- Plug-and-play electrical system for seamless installation (No refrigeration tech or electrician needed).
- High Efficiency Variable Speed Compressor Technology.

Doors

- Self closing doors with stay open feature.
- "Low-E" double pane thermal insulated glass door.
- Viewable glass height of 70" for maximum product display.
- Magnetic door gasket of one piece construction, removable without tools for ease of cleaning.

LED Lighting

- 4000k color temperature LED interior lighting, provides brilliant lighting throughout the cabinet.

Shelving

- Total of 20 (5 per door) adjustable, solid white powder coated cantilever shelves 30W" x 25D".
