## GREEN VALLEY | POLYTUF™ – RECYCLED PLASTIC

Green Valley products offer environmentally friendly alternatives. Constructed with PolyTuf™ plastic lumber custom-extruded from recycled plastics, Green Valley benches, picnic tables and receptacles are long-lasting and nearly maintenance-free. They also don't have the drawbacks of real wood, such as fading, insects, cracking and splintering.

Unlike most wood and wood-composite products that quickly fade when exposed to the weather, the PolyTuf™ surfaces have no wood fibers so they retain their vibrant look for years. In addition, they don't need waterproofing, staining or any maintenance other than an occasional washing with soap and water.
