

# Convotherm Installation Programs and Kits

Welbilt's Factory Authorized Servicer (FAS) will arrange and oversee the complete installation and start-up process. Installation services and kits are net priced and non-discountable. Customer should indicate their preferred Welbilt Authorized Service Agent for installation on the PO otherwise Welbilt RISE will select an Authorized Service Agent for the install.

Standard installation pricing includes:	Standard installation pricing does not include:
<ul style="list-style-type: none"> <li>• Travel to and from installation location by Factory Authorized Servicer (FAS) - <b>up to 200 miles round trip</b></li> <li>• Professionally reviewed and managed install process</li> <li>• Delivery of purchased equipment (6 &amp; 10 shelf combis only)</li> <li>• Uncrating of purchased equipment</li> <li>• Inspection of purchased equipment prior to install</li> <li>• Assembly of purchased equipment</li> <li>• Stacking of purchased equipment</li> <li>• Placement of unit</li> <li>• Leveling of unit</li> <li>• Connection of existing utilities within 3 feet of unit</li> <li>• Operational/functional test</li> <li>• Disposal of new equipment packaging and dunnage</li> <li>• Operator functional training on day of installation</li> <li>• Equipment Startup</li> </ul>	<ul style="list-style-type: none"> <li>• Pre-installation site survey (required*)</li> <li>• Installation kit (recommended)</li> <li>• Installation of water filtration, stacking kit, hood are additional charges as shown below</li> <li>• FAS travel over 200 miles round trip</li> <li>• Special licensing and permits</li> <li>• Installation outside normal business hours</li> <li>• Site modifications*</li> <li>• Some installation locations will require additional materials to be purchased by customer</li> <li>• In the event that pre-installation site survey or installation visit is aborted due to the site not being ready, the customer will be required to pay the FAS directly for any additional labor and travel charges for subsequent visits.</li> <li>• Disposal of old equipment (Optional - Additional charges as shown below)</li> </ul> <p>* This survey confirms that the site is ready for installation. If the site requires modification prior to installation, the customer, dealer, and rep will be notified. Costs to modify site are the responsibility of the dealer and / or customer and are NOT included in the prices shown below.</p> <p>Roll – in /Floor model combis and Blast chillers must only be shipped to site due to size of equipment. FAS will meet the shipment at the install site and transport it to the installation location</p>
<p>If more than 2 combis are to be installed in a single location and during the same FAS trip, please order installation as follows: 1- 1<sup>st</sup> unit installation and 2<sup>nd</sup> unit for the remaining combis to be installed. For example, if 4 combis are to be installed, order 1 – 1<sup>st</sup> unit and 3- 2<sup>nd</sup> units.</p>	

Installation services and Installation kits are non-discountable.
