Specifications

DTC Model Detergent Cabinets are made from 18GA Type 300 series stainless steel body and 16GA Type 300 series stainless steel top with edges turned down.

There is (1) fixed bottom shelf and (3) adjustable intermediate shelves. There is 63" high double pan hinged doors at the front with (2) three point "T" handles, one locking and barrel bolts mounted to inside top and bottom of door.

Unit includes slotted "L" bracket at top rear for securing to the wall. Unit is mounted on 6" high stainless steel legs. Cabinets are polished to #4 finish.

Product Guide

DTC detergent cabinets are ideal for institutional and public buildings. Their height and utility shelf arrangement provides higher storage volume within a compact floor space.

Glass door cabinets can be used in open kitchens or display areas of high profile kitchens.
