SPECIFIER STATEMENT

The GTi scale is equipped with a quad-core processor and Linux operating system. GT scales weigh, automatically compute a price from stored PLU's, and print a label. The GT scales utilize Hobart's multi-screen swipe technology user interface for operator ease of use. Scales on the same network may connect remotely to other scales for a Hand Wrap Station or other applications.

SOFTWARE

+ Linux embedded operating system
+ Interfaces with scale management software such as:
  - Invafresh
  - Upshop
  - Hobart HCT
  - Hobart HTe Enterprise
    - Content management
    - Label editing
    - Remote updates
