

Meet Tortilla Masters

We equip restaurants with the tools to craft the highest quality tortillas. See why we're changing the restaurant industry.

TM-105 TORTILLA MACHINE

The TM-105 Ventura Flex is a compact tabletop machine made for restaurants to produce perfect, ready-to-cook corn tortillas with ease.

Choose from 9 tortilla sizes, ranging from 3.5 to 6.5 inches in diameter, and customize the thickness between 1 to 3 mm. Set your preferred size, and the machine delivers up to 800 consistent tortillas per hour (14 per minute), ready to cook and serve.

TM-105 TORTILLA MACHINE

STANDARD FEATURES

- ▶ For corn tortilla production
- ▶ 840 tortillas per hour
- ▶ Small tabletop size (2x2 ft)
- ▶ Made in the USA
- ▶ NSF & ETL certified
- ▶ 9 tortilla cutters available from 4.5" to 6.5"
- ▶ Adjustable tortilla thickness from 1-3mm
- ▶ 1 year warranty
- ▶ 115 volts
- ▶ Stainless steel construction
- ▶ Simple "no tools required" fasteners
- ▶ Easy-to-remove components for daily cleaning
- ▶ Thermal overload protection
- ▶ Training videos available

TM-403 MOLINO MASTERS

The TM-403 corn grinder is designed for those who accept nothing but premium quality. This grinder is engineered to produce high-quality masa with a smooth, consistent texture, perfect for making tortillas, tamales, and more.

Equipped with an adjustable grinding system, the TM-403 allows you to customize the masa's coarseness to suit your recipes. The hopper and integrated water system make operation efficient, requiring only one operator to achieve superior results.

TM-403
