

Radiance All Glass Induction Buffet Chafer

Create a stunning buffet display with the Radiance All Glass Induction Chafer that beautifully displays menu items with an all-glass lid and premium stainless steel in polished or titanium finish.

Highlights:

- One of the largest glass viewing areas on an induction buffet chafer
- 18/8 high-quality stainless steel in mirror-polished or titanium finish
- Includes standard insert, additional inserts available
- Industry's only waterfall condensation return system
- All angle axle holds open at virtually any angle, self-closing axle available
- Side vents release steam to reduce condensation & steam bursts
- Elegant, high-polish metal T-shaped handle
- Compatible with all Spring USA induction ranges
- Available in round, square, and full-size

Limited Lifetime Warranty:

All Spring USA induction buffet chafers are constructed of premium, high-quality materials and are designed to retain their original performance and luster. That's our guarantee and we back it by a limited lifetime warranty.

FEATURES |

Enhanced Presentation

Crafted of premium 18/8 stainless steel, the Radiance All Glass Chafer is designed to impress with both its presentation and performance. All Radiance servers are available in matte titanium or polished stainless steel.

Advanced Condensation Management

Industry's only waterfall condensation return system collects condensation and gently returns it back into the vessels base without splashing onto the food or countertop.

Integrated side vents release steam away from guests to reduce condensation and steam bursts.

Sophisticated Features

Our signature high-polish, t-shaped handle makes serving easy and adds a touch of modern elegance. The all-angle cartridge axle system holds the lid open at virtually any angle and prevents the lid from slamming shut.
