Boil Oil Caddy Model BOC

Back View

The **Giles Boil Out Caddy** allows you to conveniently drain spent *boil-out solution* from your fryers after cleaning & easily transport it to a floor drain or designated area for safe disposal.

Features a valved drain outlet for easy “no hassle” emptying.

System of baffles inside the pan are designed to help minimize sloshing & prevent spillage ... easily removed without tools for cleaning purposes.

The *BOC* can help you save time & money when it comes to maintaining fryers.

Compatible with Giles models: GEF-400, GEF-560, GEF-720 ... GGF-400, GGF-720 ... EOF-20 Series ... EOF10-10/FFLT/24, EOF-10/10-FFLT/24/24, EOF-20/FFLT/24, EOF-20/FFLT/24/24, EOF-20/24/24

Design Features:

- Removeable *baffle inserts* for dampening the “sloshing action” of liquid spent boil-out solution while moving to disposal area. Helps prevent spillage onto floors that could present a slipping hazard to associates. Baffles easily removed without tools for cleaning.
- Handy drain valve on rear of the caddy makes emptying quick & easy.
- Durable casters for easy portability.
