Flying Insects are Permanently Incarcerated!

Flies and other insects are attracted to the ultraviolet light (Harmless to humans and pets). Our high quality sticky glue pads are laced with a sexual attractant (pheromones) which also aids to lure the insects into the fly tray and onto the glue pad from which there is No Escape! The ultraviolet light from the fluorescent tubes is powerful enough to attract Bacteria-Laden flying insects within a large radius. The sticky pad can trap up to a thousand insects before the pad must be replaced.

Features and Benefits of Owning a No-Zap™ Fly Trap

Silent and Odorless No burning smells or sparking noises. These units do not ZAP flies and flying insects into multiple pieces flinging their parts into food prep areas causing a health hazard.

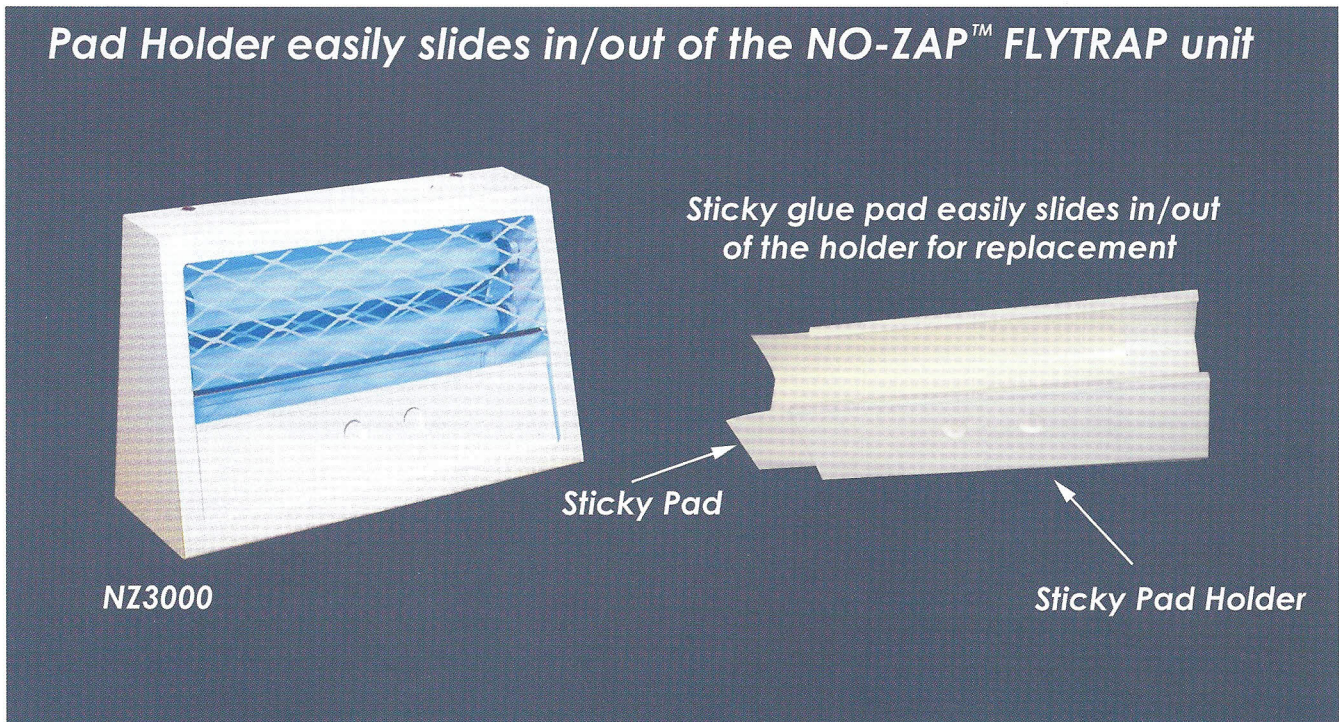

Flies and flying insects are totally contained in the unit Our nontoxic sticky glue pads are lethal to flies and other flying insects yet are totally safe for humans and pets. No insecticides are used or needed. Sticky glue pads are easy to install and remove while creating no hazard to the environment. Change pads every 30 days or as needed without contacting the remains of the dead insects.

Food Safety Beneficial No-Zap™ fly traps attract bacterial-laden flies away from food prep and food processing areas creating a cleaner, more sanitary food safe environment.

Energy Efficient Our green technology engineering has created the No-Zap™ fly trap with a very low power consumption. (uses the same amount of energy as a standard fluorescent fixture).

High Quality Construction Our No-Zap™ fly traps are constructed of the highest quality materials for a long service life and all of our electrical components are UL listed.

Pad Holder easily slides in/out of the NO-ZAP™ FLYTRAP unit

"I have nothing to gain, personally, from suggesting you look into this gadget. The No-Zap™ Fly Trap is a real find. As the old saying goes, "Try it, you'll like it!" ...we are not being bothered by ANY insects this summer - for the first time in 20 years!!!"

Robert M. McMath
Brand Marketing Magazine

"Actually, I was amazed to find that the No-Zap™ Fly Trap could catch such a variety of flying insects, some as small as a grain of pepper!"

Randy Yingling
J.H. Routh Packing

"I heard about the No-Zap™ Fly Trap from a friend in the business, we got a Model NZ5000 and what a difference!"

"We leave it on all night and in the morning, we just don't have any flies. I'd have to say, the No-Zap™ really works and it has solved our problem with flies!"

Todd Nielsen
Tustin Carniceria
