

Double Fry Dump Station Model: EFE1220-2

Holds crispy fried foods at optimal serving temperature in bulk or ready-to-grab individual portions - perfect for salt, scoop, & bag preparation

Double Fry Dump Station

Model: EFE1220-2

Key Features

- Open air holding area for quick access to products.
- Unique long-wave infrared elements heat up in under 10 minutes, and keep fried foods at optimal serving texture and temperature for up to 1 hour.
- Industry-standard 12" x 20" x 4" hotel pans serve as a catch basin
- Simple, side-mounted on/off controls with indicator light.
- Well insert between pans is removable for ease of cleaning.
- Elevated pan insert keeps food at optimal distance from heating element.
- Easily hold multiple products in one pan with provided removable divider.
- Field reversible, stainless side heat shield keeps food secure and surrounding workspace clean.
- Bagged product storage bin assists when assembling batches of product.
- Comparable units are only able to hold fries and similar items for a maximum of 20 minutes or less, before they begin to lose their crisp texture.
