

Double Wall Stainless Steel Seafood Trays

DWSSEA10

SEAFOOD TRAY, SS, DBL. WALL, 10" SQ. 10"
SQ. X 2-1/4" H

There's nothing more glamorous than a tray of oysters on the rocks. But as soon as that ice starts melting, the glamor quickly fades. The solution? American Metalcraft's collection of Double-Wall Stainless Steel Seafood Trays. These trays are super-insulated to keep the cold where you need it: in the tray.

Elevate your raw bar presentation with our 10 inch square seafood tray, crafted from two layers of brushed stainless steel for a stunning, durable finish. Its sleek square design offers a modern twist on tradition, providing the perfect stage for your finest seafood. Whether it's oysters, shrimp, or your catch of the day, this tray ensures everything stays chilled and showcased beautifully. A must-have for any high-end restaurant or buffet that values both style and safety.
