## Details and Dimensions

## Technical Specifications

**Electrical:** 120 Volts, 60 Hz and a Single Phase.

**Motor:** 1/2 HP Motor

**Blade Diameter:** 12" Blade

**Transmission:** Gear Driven Transmission

**Finish:** Anodized Aluminium

**Warranty:** Meat Gear 1-Year Warranty, Parts and Labor.

**Weight:**  
**Unit Net:**  
**Shipping:**

**Dimensions: L x W x H**  
**Unit:** 26" x 21.1" x 20.7"  
**Shipping:** 31" x 26" x 24"

## Attributes - Advantages

### Performance:

- Durable, corrosion resistant body designed for long service.
- Powerful 1/2 HP Motor with a 12".
- High-Torque Gear system that ensures consistent power delivery.
- Optimized blade speed to 430 RPM.

### Ease of Operation:

- Built-in Sharpener.
- Easy slice thickness adjustment that allows operators to customize cuts while minimizing product waste.

### Smart Control / Safety

- Simple and reliable operation for daily commercial use.
