EUROBAR STORY

The EuroBar® design was inspired by European tradition and built with American bartenders in mind. It all started with a drawing on a napkin, where Livio Lauro sketched out his ideal bar.

MEET OUR FOUNDER

Livio Lauro

**Director of Mixology | Author | Entrepreneur | Certified Mixologist |
Past President – USBG**

After working as a bartender in both Italy and the United States, Lauro became the Director of Mixology at Southern Glazer's Wine and Spirits in 2001. Livio helped revive the United States Bartenders' Guild and served as the founding president of the Guild's Master Accreditation program, a premier certification for bartenders in the United States.

- Founder and host of Master Your Glass, a weekly show on YouTube
- Author of three books on drinks and hospitality
- Beverage Hospitality Professor at UNLV
- Involved in the opening of over 1000 new bars
- Trained / Mentored over 10,000 professional bartenders
- 2020 initial design of the EuroBar began

OUR PHILOSOPHY

At EuroBar, our vision is to redefine the International hospitality scene by combining the elegance of European bars with the efficiency of American design. EuroBar isn't just about quality; it's about bringing a unique style that elevates the guest experience.

HOSPITALITY PHILOSOPHY

Built for the world's most refined hospitality environments—allowing guest engagement, and the seamless flow of service.

MINDFUL DESIGN

Visually sophisticated bar equipment, balancing performance with elegance. Designed by a bartender, for bartenders. Customization available to tailor to resort bar design.

EQUIPMENT FOR ALL GUEST EXPERIENCES

From world-class dining, intimate cocktail lounges, cafe's to poolside refreshments, EuroBar bar stations—Alto, Classico, Sportivo, Cafe and Svelto - tailored to every venue and guest experience across the Wynn Resort portfolio.

OUR PHILOSOPHY

At EuroBar, our vision is to redefine the International hospitality scene by combining the elegance of European bars with the efficiency of American design. EuroBar isn't just about quality; it's about bringing a unique style that elevates the guest experience.

Built for the world's most refined hospitality environments—allowing guest engagement, and the seamless flow of service.

EQUIPMENT FOR ALL GUEST EXPERIENCES

From world-class dining, intimate cocktail lounges, cafe's to poolside patio bars, EuroBar bar stations—Alto, Classico, Sportivo, Cafe and Svelto - tailored to every venue and guest experience.

EuroBar[®]

WHY EUROBAR?

CUSTOMIZEABLE LAYOUT

Our modular stations allow operators to personalize their bar with as many modules as needed, in various sizes and sequences to suit their unique operations.

QUALITY CONSTRUCTION

All underbar items are made with 304-grade stainless steel. Our equipment is easy to wipe clean, sanitize and resists rust and corrosion. Proudly made with 14-gauge top / 18-gauge base.

DESIGNED FOR EFFECTIVENESS

All EuroBar stations provide bartenders with ample storage for ingredients and small wares thanks to their cabinet bases. This extra storage enables them to create a broader range of beverages while eliminating unsightly objects in the view of bar patrons.

DESIGNED BY AN EXPERT BARTENDER

All EuroBar equipment is designed by internationally acclaimed bartender Livio Lauro who has trained thousands of bartenders. Livio has spent over three decades working alongside the foremost global hospitality groups helping them put together successful bars and profitable cocktail programs.

SEAMLESS DESIGN

Our units offer a unique look with no units sticking up too high or out in comparison to the ones next to them. Your bar will look clean and slick with all the cabinets and stations aligning seamlessly.

TALLER UNITS

Easy to work on: Our taller units reduce the need for the Bartender to hunch down

EuroBar[®]

ABOUT EUROBAR

EuroBar is a cutting-edge bar equipment company with three unique bar stations that have been designed by renowned cocktail expert Livio Lauro. All the EuroBar stations represent the perfect blend of a European simplicity and American effectiveness.

What makes a bar European designed?

Traditional European designed bars include cabinet base throughout, consistent height and depth to create clean lines, and a clever way to organize smallwares.

OUR THREE BAR STATIONS SAMPLE LAYOUTS

EuroBar | *Classico*™

EuroBar | *Sportivo*™

EuroBar | *Alto*™

CLASSICO MAIN WORKSTATION:

Features:

- Integrated basin for six iced condiment trays
- Rinser and drainboard
- Rectangular dipper well
- Trash chute with internal trash can (sold separately)
- Eight bottle quick-grab drawer
- Cabinet base for storage

Construction:

- Consistent height of 32" and depth 24" for seamless integration with other EuroBar units
- Corrosion resistant 304 grade stainless steel throughout
- Durable 14-gauge top / 18-gauge body

Layout:

- Dry waste chute at arm's reach
- Cabinet fits a 28 qt / 7-gallon trash bin
- Ice bin module is set to the side of the prep area preventing any spilling of ingredients or contamination into the ice
- Includes two recessed hand towel and bar rag caddies. The bottle drawer allows the bartender to easily prepare drinks without the speed rack on the main station pressing into knees and legs (or pour spouts rubbing on their pants).

EUROBAR | CLASSICO™

The perfect blend of European design and American efficiency.

EUROBAR | CLASSICO™

SAMPLE LAYOUT

ADDED STORAGE

Cabinet base and drawers on all modules add storage and hide plumbing.

OUTDOOR READY

Corrosion-resistant 304 grade stainless steel throughout

CHEFS COUNTER

Counter for bartenders with added prep area

QUALITY CONSTRUCTION

14-gauge top and 18-gauge base

EuroBar®

SPORTIVO MAIN WORKSTATION:

Features:

- Integrated basin for six condiment trays
- Rectangular Dipper Well
- Insulated Ice Bin with cold plate
- Recessed 12-Bottle Speed Rail
- Eight bottle quick-grab Drawer
- Cabinet base for storage

Construction:

- Consistent height of 32" and depth 24" for seamless integration
- Corrosion resistant 304 grade stainless steel throughout
- Durable 14-gauge top / 18-gauge body
- Available in 48" or 36" modules

Layout:

- Bottle Storage Capacity: 13 bottle speed rail, 8 bottle quick-grab drawer.
- Center Station also provides a drink prep area that can be converted into an insulated drained juice well
- Center 24" ice bin with 90 lbs. of ice
- Center speed rack for optimal space usage and easy product grab with left and right hands

EUROBAR | SPORTIVO™

This Sporty Chic unit mixes speed and elegance.

EUROBAR | SPORTIVO™

EuroBar®

ALTO MAIN WORKSTATION:

Features:

- Six integrated iced condiment trays with cover
- Rectangular dipper well
- Recessed glass rinser
- Recessed nook for clean shakers
- Trash chute with internal trash can (sold separately)
- Eight bottle quick-grab drawer
- Utility drawer for bar accessories and other miscellaneous items

Construction:

- The Alto Main Workstation: Height 42" x Length 36" x Depth 24" to create a uniform height with bar and guest
- Corrosion resistant 304 grade stainless steel throughout
- Durable 14-gauge top / 18-gauge body

Layout:

- Ice bin module is set to the side of the prep area resulting in no spilling of ingredients or contamination into the ice

EUROBAR | ALTO™

This station brings the cocktail mixing show to the guests.
