18/0 Recyclable Flatware

WORLD
TABLEWARE

Here's a great alternative to plastic and bamboo utensils – light weight, recyclable 18/0 stainless steel flatware!

FOR ANY OCCASION, FOR ANY VENUE. Using our popular Aspire pattern as inspiration, we've developed a sturdy, light weight metal flatware perfect for take-out, catered events, outdoor venues and much more.

SET YOURSELF APART – DON'T COMPROMISE. Stainless steel flatware provides better functionality, better looks, hand feel with “substance” and the initial lip/mouth feel to deliver a more satisfying dining experience.

BUY IN BULK – Knife is bulk packed 20 dz. per carton; all other flatware 36 dz. per pack.

WHY CHOOSE METAL?

Most compostable flatware is only able to decompose in specialized facilities (just 50 US locations, approximately.) If compostable flatware is not sent to these specialized facilities, it ends up as landfill waste where it decomposes as slowly as plastic. 18/0 stainless steel can be recycled.

RECYCLE OR REUSE, OR BOTH -

Yes! Because this flatware is metal, it's dishwasher safe. Once sanitized in the dishwasher, it can be reused at your venue or at your customers home or office.
