

CeramicQR QUICK RELEASE

Your new top choice:

CeramicQR is the next generation cookware, taking our successful Black Cube™ to the next level!

Ceramic + Stainless

- ✓ No PFAS
- ✓ No Silicone

Available exclusively from our Fort Mill, SC warehouse

- Ahead of the curve: Compliant with the latest regulations: **Contains no PFAS**
- Revolutionary ceramic coating combined with stainless steel pixels
- Scratch and heat resistant (metal utensil safe!)
- Textured stainless steel + ceramic surface for perfect browning and searing as well as quick release of your culinary creations
- High quality 3-ply stainless steel (stainless-aluminum-stainless)
- Oven safe up to 540 °F
- Suitable for all cooktops, including induction
- Will not discolor or chip, unlike most ceramic cookware
- Riveted handle
- Made in France

Note: This is a preliminary worksheet for the trade. Details on PFAS and coating will be made available separately.
