Beverage Series

The Ultra Jar, Our Fastest Blending Jar Yet!

Blend Up To 50% Faster

The Blendtec Ultra Jar is engineered for high-volume shops that value speed without compromise. It can blend finished drinks in as little as 6 seconds. Faster blends mean more drinks per hour, lower labor costs, and consistent quality in every cup.

The Secret

- Chamfered corners reduce the footprint at the base of the jar keeping ingredients flowing to the blade, reducing cavitation and reblends. The reduced base side also allows for smaller recipes.
- Larger side ribs disrupt the flow of the blending vortex pushing ingredients back down toward the blade.
- Our patented blunt safety blade has been optimized to handle a wider range of recipes.

Versatility

Blend iced coffee drinks, and smoothies. Great for limited time offerings (LTO's). Keep menu offerings fresh.

Safer For Your Customers

Colored jars and lids make it easier for your employees to know which jar to use for specific blends. Prevent cross-contamination and focus on meeting individual customer needs.

Safe & Strong

Made from durable Tritan™. These jars were built to last.

Hard Lid

Easy to apply, remove and clean. Corner extensions to cover the pour spout and for easy grip.

Certifications

NSF

Dimensions

W: 6.9" (17.5cm)
D: 6.9" (17.5cm)
H: 9.5" (24.2cm)

Weight

1.6 lbs (725.7g)
