

Schaerer Coffee Soul C

Redefining Pressure Brewed Coffee

Schaerer Coffee Soul C

The Schaerer Coffee Soul C is the newest bean-to-cup innovation from SEB Professional. The Coffee Soul C offers the freshly ground and brewed coffee we know and love - hot or iced - made on demand. This machine boasts new technologies and features, such as integrated automated daily cleaning, automated calibration of grinders, full bi-directional capabilities, a built in ADA panel, and more - all while reducing an operator's labor and waste.

Leveraging learnings and technical expertise from over 60,000 installed machines in the field, the Coffee Soul C offers solutions and features our customers need to keep their operations more efficient.

Features

Integrated ProCare

Eliminates the need for manual cleaning of the coffee system for 300 days. The automated daily cleaning is completed without user intervention based on the preferred scheduled time. Ensuring maximum machine uptime and the highest quality beverage.

28 Gram Brew Unit

The field-proven and time-tested 28-gram automat guarantees reliability, long service life, and excellent performance for up to a 24oz beverage in a single cycle. It can be removed in less than 5 minutes without tools.

Auto Setup and Calibration

Machine set up and calibration times are drastically reduced. With auto calibration and self adjusting coffee grinders the Soul C offer smooth and quiet operation while providing a fresh, quality cup of coffee every time.

Footprint & Model Configurations

Material #:	1341950002	1341950003

Integrated ADA	Included	Included
Certifications (NSF , UL)	03.4195.0002 [NSF website]	03.4195.0003 [NSF website]

- For North American models, the first digit of the model number is "1" (e.g., 1XXXX). For European models, the same unit is identified with a leading "0" (e.g., 0XXXX).
- Recommended daily output is determined using a machine with constant water supply and is dependent on cup size, quality settings, spout, model and nominal power rating. The recommended maximum daily capacity is based on our catalogued service concept. However, these average values serve merely as a guideline. Let our trained team match the ideal coffee machine design to your specific needs.
