The Chicago Metallic Story

For more than 120 years, the Chicago Metallic name has been synonymous with innovative products, superior quality, and exceptional service. Today, we manufacture more than 300 different baking pans and ship to customers worldwide—typically within 48 hours.

Quality

- **Biggest Inventory:** We maintain the world's largest inventory, so you can get the products you need without delay.
- **Best Glaze Coating:** Our proprietary AMERICOAT® ePlus silicone glaze offers up to 30% more releases than other silicone glazes.
- **Superior Performance:** Our products provide unmatched durability and strength, and we continually innovate to make them safer, more sanitary, and environmentally sound.

Expertise

- **Deep Experience:** We began creating quality bakeware in 1898—and have continually innovated and enhanced for more than a century.
- **Focus-Driven:** Our team is focused on providing unmatched quality control to give you the high-quality products you expect every time.
- **Custom Solutions:** Need something unique? We'll create custom pans to meet your exact specifications and supply chain needs.

Service

- **Delivery on Demand:** We stock vast inventory, so most orders ship within 24 to 48 hours.
- **Outstanding Service:** Chicago Metallic is a family-owned company, and our deep passion for the baking industry is matched only by our commitment to exceptional service.
- **Guaranteed Satisfaction:** In addition to the confidence of working with the world's largest baking pan manufacturer, you can enjoy the peace of mind that comes with knowing your satisfaction is 100% guaranteed.

Made in the USA

All Chicago Metallic pans are manufactured in the United States with global materials.

The Bundy Baking Solutions CREED

It is our mission to be the most trusted supplier of essential equipment, bakeware, coatings, and services to bakers around the world. We will achieve this by living out our CREED, a commitment to ourselves and to the industries we serve.

- **Commitment:** We are committed to making products that our customers need at a level of quality and value they deserve. We want to make a positive difference in the operations of our customers.
- **Respect:** We respect our customers and are grateful for the opportunities given to us. Each customer is different and we work to earn their support.
- **Family Environment:** We are a family business and believe in the value of relationships. We make a genuine effort to know our customers and the challenges they face so that we can come together as a team.
- **Excellence:** We are driven to constantly move forward and pursue excellence every day. We believe that what our customers do is important and what we do is important; therefore, it is important to always do it right.
- **Personal Development:** We constantly develop our people and our processes to be the best at what we do and provide the best products to our customers.

AMERICOAT® ePlus Glaze

Coating Definitions

All products in our catalog include information about the type of coating that is applied to that particular product. See the table below for definitions of the coating terms we use.

Coating	Definition
Plain	No coating
Glazed	AMERICOAT® ePlus silicone coating
Pre-Seasoned	BÄKALON pan material with AMERICOAT® ePlus silicone coating
Black, Blue, Gold, Green, Orange, Red, Silver	Color anodized
Non-Stick Black	Nordic Ware® silicone coating

AMERICOAT® ePlus silicone release coating is the industry’s leading silicone coating technology used on all Chicago Metallic glazed pans. AMERICOAT® ePlus is a clear glaze that reduces the need for secondary release agents such as oil, silicone, or paper by up to 50% and offers long-lasting performance with approximately 300 to 600 releases* achieved before recoating is required.

Safe for Food Contact

AMERICOAT® is a silicon-based, non-stick, and non-toxic coating that is responsibly manufactured and derived from naturally occurring minerals. AMERICOAT® complies with all relevant FDA, EU, and other known regulations for food contact.

Save Money with Pan Refurbishment

Even with proper care and cleaning, your pans will eventually need to be refurbished. That is why, through our sister company, Pan Glo®, we offer The Pan Glo® Process. Every year, millions of baking pans of every shape, size, brand, and configuration are processed by Pan Glo® plants around the world. These cleaned and freshly reglazed pans are returned to productivity with improved release characteristics, time and time again. Refurbishment costs less than purchasing new pans and saves money due to the decreased need for release agents.

We have 18 facilities across North America to better serve your straightening, cleaning, and coating needs. For more information, please call 800.652.2151 (USA), 800.265.8445, ext. 239 (Canada), or +52 728 285 3802 (Mexico), or visit panglo.com.

*Note that this is an approximate number and may not be the exact number of releases achieved.

Custom Pan Manufacturing

Need custom pan sizes, mould designs, or configurations?
Chicago Metallic can design a pan to meet your specific baking needs.
Minimum order quantities are as low as 250 on most pans (500 for individual bread pans and 200 for bread sets). Contact us for more information.

REQUEST
A QUOTE

Customized Solutions

- **Sizes & Arrangements:** Customize your overall pan size, mould arrangements, and dimensions.
- **Mould Designs:** Create unique mould designs for signature products.
- **Materials:** Build your pan from strong and durable materials such as aluminum, aluminized steel, stainless steel, anodized aluminum, etc.
- **Pan Strengthening Options:** Enhance the strength of your pan with structural ribs, large-radius corners, and more.
- **Coatings:** Select plain/uncoated pans or pans coated with our proprietary AMERICOAT® ePlus glaze.

Pan Use & Care

The top three things to know about caring for your Chicago Metallic glazed pans:

- De-pan products quickly.
- Hand-wash only.
- Do not use metal utensils.

For complete pan use and care guidelines for any of our pan types, visit useandcare.cmbakeware.com. Printed Use & Care cards are included in all factory shipments and are available upon request.

[†]StayFlat® U.S. Patent No. 9,737,171.

StayFlat® Sheet Pans

StayFlat® Sheet Pans feature sidewalls that are continuously reinforced with a horizontal engineered rib. This feature increases sidewall strength up to 30% and provides an easy visual identification for situations where stronger, flatter sheet pans are required.

In addition, we also offer the world's first sheet pans to have the strength of a completely enclosed pan rim and to be certified by NSF International.

Custom Wire Options for Sheet Pans

Chicago Metallic offers the exclusive ability to customize our solid or perforated sheet pans with aluminum or stainless steel wire options. By having your pans manufactured with aluminum or stainless steel wires, you are eliminating the potential for corrosion within sheet pan rims, a major health and foodservice concern, as pan rim corrosion leads to food contamination and a reduction in the overall life of baking pans.

Perforated Baking Pans

Perforated sheet pans enhance airflow during baking, making them especially ideal for convection ovens. They ensure even bakes, consistent results, and perfectly crispy textures in less time and are perfect for baking items such as fries, chicken fingers, pizza, bagels, and more!

Mini-Crown Muffin Pans

Mini-Crown Muffin Pans from Chicago Metallic provide bakers with a profitable and unique solution to meet the food industry's current health and convenience trends. The pans produce an appealing, cupcake-like crown, but use 20% less batter.

Cupcake & Muffin Pan Mould Profiles

(A)
Bell-Shaped Crown

(B)
Large Rounded Crown

(C)
Cake Top

Most Chicago Metallic cupcake and muffin pans produce a bell-shaped crown. Other moulds produce a rounded crown or a flatter, cake-like top. Each mould profile is marked with an (A), (B), or (C) to indicate its typical crown shape.

Please note that all dimensions are in inches.

*Volume (Vol.) indicates liquid volume of mould when filled to brim. Use 60-70% to estimate actual batter weight.

Large-Radius Corners

Most Chicago Metallic muffin pans feature an innovative large-radius, seamless corner design. This design significantly increases pan frame and corner strength, extends pan life, and makes pans safer, more sanitary, and easier to handle. These pans also nest and stack easily with older, small-radius corner pans.

ePAN® Pans

Chicago Metallic ePAN® pans are manufactured from high-tensile strength aluminized steel which produces a pan that is thinner and lighter, yet substantially stronger than traditional pans. Using less metal also means ePAN® pans heat faster and cool more quickly.

Uni-Lock® Baguette Pans

Our Uni-Lock® Baguette Pans utilize a patented locking method to provide a permanent connection between the frame and panel. Our unique design does not rely on individual fasteners or welding so there are no rivets to loosen and fall free and no broken welds to worry about.

*Volume (Vol.) indicates liquid volume of mould when filled to brim. Use 60-70% to estimate actual batter weight.

Tortilla Shell Pans

Chicago Metallic's Tortilla Shell Pan is ideal for baking a healthier version of the popular fried tortilla bowl. Baking tortillas instead of frying them eliminates the extra fat and calories while still providing the crispy texture that consumers love. The tortilla shell pan can accommodate a variety of tortilla sizes; thus, the tortillas can be used as a delicious serving bowl for dips, salads, desserts, and more.

EXACT STACK® Pizza Pans

Chicago Metallic EXACT STACK® Pizza Pans are engineered to stack securely yet release easily when lifted. The pans can be used to proof dough while stacked and will not stick together due to the proprietary design. They offer an average overall space savings of 30% over traditional pizza pans with lids. Made with high-strength aluminum with a durable, hardcoat anodized surface that will not chip, peel, rust, or interact with food, EXACT STACK® Pizza Pans are available plain or pre-seasoned with AMERICOAT® ePlus glaze.

BĀKALON Pans

Chicago Metallic BĀKALON Pans are hard anodized aluminum pans that provide optimal strength, durability, and thermal conductivity. This ultra-hard, aluminum oxide surface provides a nearly permanent protective dark gray cooking surface that will not chip, peel, rust, or interact with food. In fact, some bakers have experienced over 50,000 bakes!

BĀKALON pans pre-seasoned with Chicago Metallic's proprietary AMERICOAT® ePlus silicone release coating offer exceptional ease and convenience, combining the release characteristics of a non-stick coating with the flexibility to use metal utensils.

96290	★	Pre-Seasoned	14 gauge, flared sides, welded corners, hemmed edge	3.6	17 3/4 x 25 3/4 x 1

Materials

Pizza pan material impacts heat conduction, durability, and crust quality, making it an important consideration for consistent and efficient baking.

- **Aluminized Steel:** Retains a significant amount of heat during the baking process.
- **Carbon Steel:** Produces a truly authentic Detroit Style Pizza that heats evenly and retains heat well.
- **Hardcoat Anodized Aluminum:** Radiates more heat than lighter colored pans, resulting in faster bake times and crusts with a darker bottom.

Shapes

The shape of your pizza pan affects portioning, presentation, and space optimization, influencing both operational efficiency and customer appeal.

- **Rectangular:** Maximizes the use of oven space and provides a larger surface area.
- **Round:** Presents a truly recognizable dish with a variety of size and topping options, offering extreme flexibility in menu offerings.
- **Square:** Offers more crust edges and appeals to customers looking for a non-traditional pizza style.

Coatings

The right pan coating ensures easy release, reducing the need for oil/grease, and enhances the pan's lifespan, streamlining your baking process and maintenance.

- **Glazed:** Reduces the need for secondary release agents such as oil.
- **Plain:** Provides a budget-friendly pan option, allowing you to season it yourself for customized results.
- **Pre-Seasoned:** Offers exceptional ease and convenience, combining the release characteristics of a non-stick coating with the flexibility to use metal utensils.

Special Features

Special features of pizza pans optimize baking performance and cater to unique menu offerings, setting your operation apart.

- **Embossed Feet:** Allows air to flow between the pan bottom and deck oven heating element, enabling deep dish pizzas to bake longer without burning the crust.
- **Perforated Bottoms:** Provides air flow to the bottom of the crust to help crisp crusts faster.
- **Stackable Sidewalls:** Offers the ability to stack pans securely during proofing or storing to save on space.

The Upper Crust in Pizza Pan Options

From thin crust to deep dish and a wide range of specialty styles, we have the perfect assortment of pizza pan materials, shapes, coatings, and special features in stock and ready to take your pizza production to the next level!
