Standard Features, Benefits & Options

CONSTRUCTION: Easy cleaning, corrosion resistant stainless steel frame construction. No slip rubber footings.

Full 1 liter stainless steel grease drawer easily accessible from the front.

GRIDDLE PLATE: ½" thick high polish cold rolled steel. Cold rolled steel is excellent for heat conductivity and retention, allowing it to heat evenly and maintain temperature.

ELEMENT: Reliable heating element is attached to the bottom of the griddle plate and designed for even heat distribution. Single phase.

CONTROLS: Thermostat control from 150°F to 570°F for precise temperature control and a wide range of food products. The 16" wide model features a NEMA 5-15P plug, the 24" & 30" models feature a NEMA 6-20P plug.

TESTING: CSA design & CSA Sanitation (ANSI-NSF4) certified.
