Oil Management System

Model: OM-80

Shown with
Rinse/
Discharge
Hose

Features & Benefits: Safe removal of fryer oil to disposal bin for recycling dollars.

Operational:

- 80 LB Capacity
- Low Center of Gravity: Makes the OM-80 easier to push and roll with less effort.
- Easy cleaning – No tools needed.
- Ergonomic safe pump handle.
- Curved Handle: Ergonomically designed handle makes the OM-80 easier to maneuver.
- Quick Disconnect Hose: Makes the OM-80 easier to store when not in use.
- Small footprint for storage.

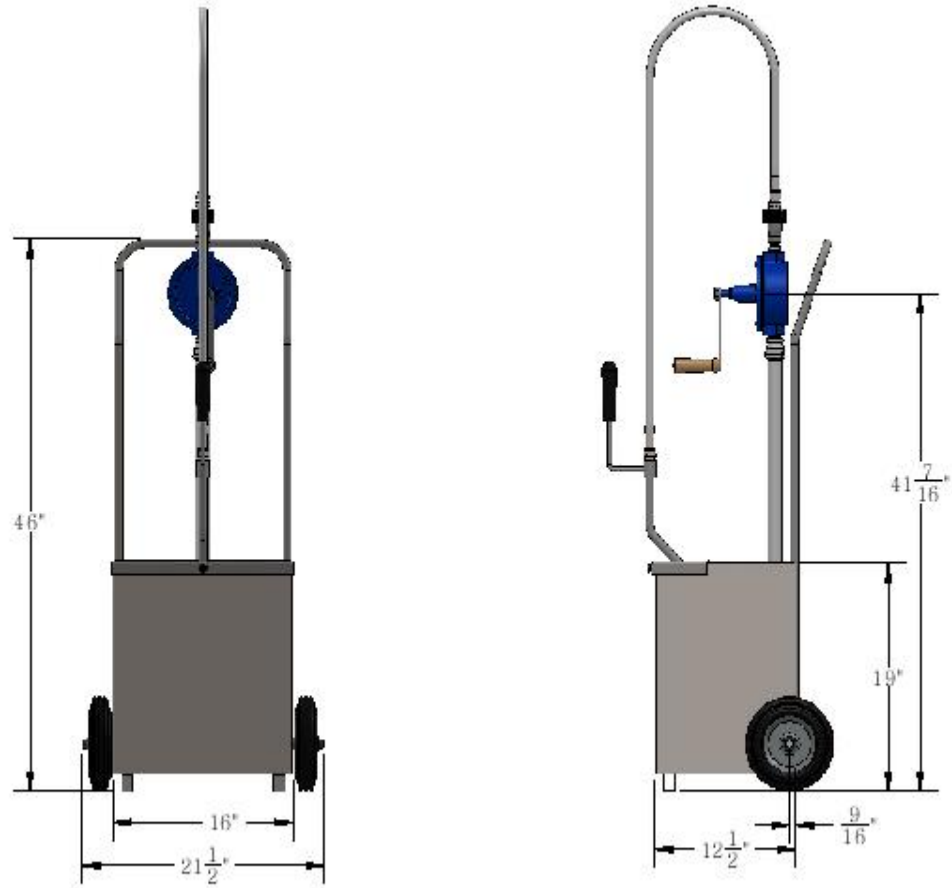

Safety:

- Lower Hose Connection Position: Leads to less oil in the hose and less chance of hot oil falling onto the floor.
- Oil Grooves: Catches excess oil dripping onto the OM-80 and funnels it back into the unit.
- Hinged Cover: There is no removal of the Oil Cover. The OM-80 has a piano hinge so there is no need to remove the cover.

Unit does not include: Rinse/Discharge Hose
