Adjustable digital controls specially set to run at the proper storage temperature for most beauty products

Removable storage trays feature in a matte blush finish

### Product Features:

|                                          |                                                                                                                                                                       |
|------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| BeautiFridge Cosmetics Refrigerator      | Designed and constructed to ensure the proper storage conditions for skincare products                                                                                |
| Specially designed for cosmetic storage  | Warmer temperature setting via digital controls allow the perfect storage conditions for high value creams, cosmetics, and perfumes                                   |
| Ideal storage temperature                | Operates between 42° and 65°F to keep cosmetics properly cooled                                                                                                       |
| Powerful compressor-based cooling system | Unlike thermoelectric cosmetics coolers, this model features a commercial grade cooling system to ensure faster cooling and a more stabilized temperature performance |
| Digital thermostat                       | Adjustable thermostat located inside to prevent unsupervised temperature changes                                                                                      |
| Compact dimensions                       | Less than 14" wide and 18" deep to allow for placement on vanities, countertops, and similar spaces                                                                   |
| Pink trimmed door                        | Door frame features a gentle blush trim in a matte texture                                                                                                            |
| Double pane tempered glass door          | Heat resistant design provides clear view of stored products                                                                                                          |
| Automatic defrost                        | No-frost convenience for reduced user maintenance                                                                                                                     |

## LX114LPTP Specifications:

### Overview

|                            |                    |
|----------------------------|--------------------|
| Height of Cabinet          | 18.88" (48 cm)     |
| Height to Hinge Cap        | 19.25" (49 cm)     |
| Width                      | 13.75" (35 cm)     |
| Depth                      | 17.25" (44 cm)     |
