

# Hassle-Free Heated Holding

## DF Series Door-Free Cabinets

These cabinets are ideal for just about any type of holding. Hold covered moisture-sensitive food, uncovered crisper foods... even boxed pizza.

Individually heated shelves and removable built-in food covers allow you to hold a variety of foods. Leave the covers in for moisture-sensitive food. They form a tight seal over 12"x20"x2.5" steam table pans and the food creates its own environment. Leave the covers off, or use a 18"x26" sheet pan for crisper foods. How about boxed pizza? No problem. We have sizes to fit pizza boxes up to 18" x 18".

Four and five shelf units are stackable, without the need or expense of a stacking kit!

**One Cabinet...  
Multiple  
Environments**

**CARTER-HOFFMANN**

**Patent Pending**

# Hassle-Free Heated Holding

**All stainless steel with electronic controls and stackable options!**
