CONSTRUCTION, HARDWARE, INSULATION

Cabinet exterior front, one piece sides, louver assembly & door is constructed of heavy gauge stainless steel. Cabinet interior & door liner is also constructed of heavy gauge stainless steel. The exterior cabinet top, back & bottom are constructed of heavy gauge galvanized steel. A set of four (4) adjustable 6" high stainless steel legs are included.

Doors are equipped with removable plug cylinder locks and guaranteed for life cam-lift, gravity action, self-closing metal, glide hinges with stay open feature at 120 degrees. Guaranteed for life, work flow door handle is mounted horizontally over recess in door which limits protrusion from door face into aisle ways.

Gasket profile and EZ-Clean material simplify cleaning and increase overall gasket life. Anti-condensate heaters are located behind each door opening. Cabinet and door contains high density, non-CFC, foamed in place polyurethane insulation.

SELF-CONTAINED REFRIGERATION SYSTEM

A top mounted, self-contained, balanced refrigeration system using environmentally friendly, non-flammable R-450A refrigerant is conveniently located behind the one piece louver assembly. It features a large high humidity evaporator coil located outside the food zone, and a top mounted non-electric condensate evaporator. Heaters and fans mounted in the mullion facilitate the Even Thaw process. Standard operating temperature is 37-41°F. System automatically reverts to refrigeration when product is thawed.

CONTROL

Traulsen's Smart Control features advanced control algorithms & sophisticated diagnostic capabilities to optimize performance. Utilizing Smart Sensors, it adapts the operation of the refrigeration system to a variety of environments & usage patterns. The Smart Control also offers a complete set of visual alarms designed to alert the user to critical events such as power outages or a prolonged door opening. In the event of an alarm, a dedicated Alarm LED will illuminate, informing the user of the critical event and duration.

INTERIOR

Standard interior arrangements include fourteen (14) #1 trayslides, fourteen per section. Each pair of trayslides can accommodate either: (1) 18" x 26" or (2) 14" x 18" pans.

WARRANTY

Both a six year parts and labor warranty and a seven year compressor warranty (self-contained models only) are provided standard.
