

Tarrison Security Units Assembly Instructions

1. Install top and bottom shelves. The top shelf goes to the highest level of the post and the bottom shelf is positioned with the shelf clip over post position #7 (#6 should be visible under the clip).
 - Any optional mid-shelving should be installed in unit now
2. Remove the black caps from the posts and tap in the post inserts (remove the bolts before tapping).
3. Install left and right sides making sure the post tabs are located on the bottom. The bottom of the sides must fit under the lower shelf.
4. Install the (3) back sections, making sure the two lower sections have the three tabs on them. The tabs should be positioned as follows...
 - i. Bottom section has two tabs on the outside and one on the inside.
 - ii. Mid section has two tabs on the inside and one on the outside.
5. Install doors on front of unit, making sure they swing freely
6. Finally, screw the bolts back into posts (through the hinges
