

# Well covered

Adding well covers to your equipment accessories will enable you to expand your well's serving options, create spatial efficiencies and promote food safety practices. Let our Professional Bakeware offerings provide you with more serving solutions.

## COLD FOOD WELL TILES

Tiles help keep foods at optimal serving temperatures while creating an energy efficient food safety zone. They are a great way to convert your current cold wells into grab-n-go stations or create additional usable surfaces when not in use. Tiles are available in solid or grid pattern.

## SAFETY SHIELDS

### FOR COLD WELLS

Finding solutions to modify current serving stations has become a must. By limiting the access to self-serve foods, contamination and health risks can be reduced for both staff and patrons. Adding shields or partitions can be more economical alternatives for restaurateurs and operators than remodeling serving and dining spaces. Our cold well acrylic shields with black metal frames are offered in 2, 3 or 4 well configurations.

For custom requests, please contact your TableCraft sales rep.

- ¼" acrylic provides excellent clarity, cleanability and durability
- Light-weight, durable frame constructed of extruded metal tubing and plastic connectors
- Ships flat and assembles easily, no drilling or tools required
- Made to order and ship from Willis, TX location

Item #	Description	Min Order	List Price (\$)
<b>COLLAPSIBLE METAL FRAME SAFETY SHIELDS FOR COLD WELLS</b>
