

### OUTSTANDING PERFORMANCE IN A DURABLE CABINET

Our Spec-Line offering of refrigerators & freezers deliver superior temperature maintenance & unsurpassed reliability- even in the toughest kitchen environments. Our unique circular airflow with Load-Sure Guard, & user-friendly Smart Control keeps your food at consistently safe temperatures 24/7. Traulsen Spec Line units are proudly engineered and hand-assembled at our facility in Fort Worth, TX.

### 3 SUPPORT FOOD SAFETY

- Unique circular airflow enables fast temperature recovery & consistency
- Easy-to-read display includes critical alarms for cabinet temperature, power interruption & more

### 4 ENJOY PEACE OF MIND

- Smart Control with LED display provides precise temperature control, increased energy efficiency & advanced diagnostics
- Load-Sure guard protects cabinet from improper loading- full capacity can be used without blocking air flow
- 6-year parts & labor warranty and 7-year compressor warranty

### 1 REDUCE COSTS

- Faster temperature recovery means less potential for food waste
- Raised door pans protect gaskets, reducing replacement frequency
- All-metal, 100% foamed in place construction promotes equipment longevity
- E-Z Clean gaskets last up to 4x longer than PVC

### 2 SAVE LABOR

- Easy-to-clean, front-facing condensor
- E-Z Clean gaskets profile & material simplify cleaning
- StayClear™ condenser coil simplifies preventive maintenance
