

Go Range

Boosting the 'on the go' service: products to be consumed on the go. Contactless or Self-Service juicers and accessories such as bottles or displays will help you consolidate the 'on the go' service. Nowadays, any shop can access home delivery thanks to delivery

platforms. Including freshly squeezed juice in your delivery is possible with Zummo's customisable juicers and bottles, a plus that will increase your customers' loyalty and increase their average ticket.

Z14 Nature Contactless

Discover Contactless Juicing

This version of Z14 Nature has the latest technology in cashless payment systems. When payment is made, the machine is activated, squeezing the juice instantly without the need to touch the juicer at any time. Therefore, it is the ideal option for installation in small supermarkets, grocery stores, convenience stores or hotel halls, OCSs, coworking spaces.

Discover contactless Juicing

1. EVS®Advanced

Unique vertical juice extraction system; a Zummo exclusive. Based on manual juice extraction system it achieves maximum profitability, obtaining the purest possible juice with the greatest operational functionality.

2. Juice extraction kits

The different-sized juice extraction kits help to maximise the yield of the juice extracted from the fruit depending on its diameter. Easily identifiable thanks to the characteristic colour of each range: Medium (M): Orange; Large(L): Maroon.

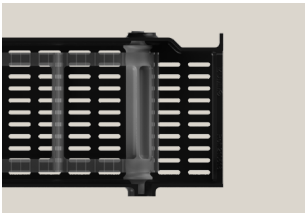

A system developed by Zummo to assemble and disassemble the balls of the kit in just one movement.

3. Automatic filter

Comprised of a belt that starts to move when the juice extraction starts up, sweeping away the seeds and pulp that remain in the filter: greater juice extraction performance and greater autonomy.

Automatic filter

4. Payment devices

Has a payment system that activates the machine. Payment methods: Prepayment cards/loyalty, Credit/debit cards, Mobile apps/payment gateways.
