

COLD / FROZEN BEVERAGE DISPENSERS:

The Millenium (3.2 Gallon Tank Capacity Each)

The allure of a frozen cocktail like a frozen margarita, a pina colada or a strawberry daiquiri on a hot night is irresistible. For kids and families, you can sell cold lemonade on the left, strawberry slushy in the center and lime frozen yogurt on the right—the temperature and beverage consistency are separately programmable for each tank. Maximize your money-making opportunities with a three-tank machine!

Calculate your cost per cup and look at your market to see what you can charge for a delicious frozen treat. This machine can pay for itself in a single season! (The compressor's warranty runs for FIVE YEARS.)

AFCM-3

- Perfect for Slushies, Sorbet, Smoothies, Sangria, Iced Coffee/Tea, Lemonade, Italian Granitas, Frozen Margaritas, Coladas, Daiquiris, Yogurts, Shakes & much more.
- Patented, Dual-Auger design keeps product up front for better visual appeal.
- Simple to learn, program and operate. And, with its patented "seal-less" operation, easy to clean, too!
- Great warranty and NO mandatory annual maintenance contract.

WARRANTY: 5 years Compressor, 3 years Electronics, 2 years Parts (except plastic, rubber & other wear items), 1 year Labor, supported by a National Service Network
