- Detailed instructions and specification on cleaning and application to best maintain your equipment
- A national service network and service manuals for our extensive product offering.

ENCLOSED TRAY & RACK DISPENSERS

APPLICATION

The enclosed style tray & rack dispenser is a convenient way to dispense trays or wash racks in your tray make-up line.

CONSTRUCTION

The cabinet exterior panels are constructed of 20-gauge stainless steel. The corner legs are .120"x1"x1" stainless steel. This body is attached to a galvanized steel dolly with four each 5" diameter casters 2-with brakes. The top flange is 14-gauge stainless steel with a perimeter vinyl bumper. The self adjustable dispensing carriage has all welded stainless steel construction and accepts trays or racks on a stainless steel spring loaded self leveling carriage. Carriage features banks of tension springs on two sides. Spring tension for carriage is field adjustable without use of tools by hooking or unhooking springs to or from carriage for proper dispensing levels. Carriage also features sets of nylon roller guides on all four corners to provide smooth leveling movement inside unit frame.

Model Numbers:

**ESTD1418, ESTD1520,
