HEATED DISPLAY MERCHANDISER SHDM-PT SERIES 24 – 32 – 38 – 44 - 50

Sierra's heated display merchandisers are the perfect solution to display and keep warm hot wrapped sandwiches, burgers or boxed foods while keeping them at the optimal serving temperatures.

These heated merchandisers are most widely used at C-Stores, gas stations, schools, stadiums and many more areas. With the 'pass-thru' design, the food is easy to grab by either operator or customer and foods are kept warm by infrared heaters on the top of each shelf.

Safely and stylishly display pizzas, burgers, precooked meals, and more with the Sierra SHDM-PT series in five various lengths.

These use slanted shelves that provide an open and full view of your product for best eye appeal. Independent heat and light controls on each shelf let the operator specify display and holding conditions for different foods, giving you the precision and versatility needed for excellent flavor and marketing potential.

STANDARD FEATURES

- 🔥 Each shelf has independent heat and light controls
- 🔥 Adjustable thermostats for both upper and lower shelves
- 🔥 Handsome black powder coated finish for any décor setting
- 🔥 Tempered glass sides for safety and complete product visibility
- 🔥 Adjustable divider rods makes it easy to load the boxed foods or sandwiches
- 🔥 Pass through design allows either the operator or customer to grab the food
- 🔥 SHDM-PT's are available in five different lengths: 24" 32" 38" 44" & 50"
