P36N-III with TVES/10SC	*Reference Electric TruVection Spec Sheet	

ELECTRIC:

- Standard: 240/60 3 phase. Rear 3 pole terminal block for electrical connection. Must be wired by licensed electrician
- Optional: 240/60 1 phase. Rear 3 pole terminal block for electrical connection. Must be wired by licensed electrician
- Optional: 208/60 available

MISCELLANEOUS

- If casters are used with a flexible-hose gas connection, a restraining device should be used to prevent undue strain on the hose.
- Minimum clearance from noncombustible construction is zero (except there must be 2" clearance behind the blower motor of convection-oven models). Minimum clearance from combustible construction is 10" (254 mm) on sides and 6" (152 mm) on rear.
- Installation under a vented hood is recommended.
- Check local codes for fire and sanitary regulations.

NOTICE: Southbend has a policy of continuous product research and improvement. We reserve the right to change specifications and product design without notice. Such revisions do not entitle the buyer to corresponding changes, improvements, additions or replacements for previously purchased equipment.

OPTIONS and ACCESSORIES
