Operation Note: These Food Warmers are for "Wet Use" only. Dry operation of this equipment is dangerous and will VOID all product warranties.

PANINI GRILLS

ETL Electrical and ETL Sanitation Certificate listed

Versatile cooking machines, ideally suited for high-volume food service operations. The fine grain, cast-iron cooking surfaces are covered in a high heat-resistant, non-stick ceramic coating that ensures perfect heat distribution. Easy to clean & maintain. Depending on model size, cooking surfaces may be available in ribbed, smooth or mixed (ribbed/smooth.) Comes with heavy duty cleaning brush.

- Cooking temperatures up to 570° F
- Adjustable, self-balancing upper plates
- Shock proof and heat treated/coated heating elements
- Adjustable thermostat up to 300° C
- Removable drip trays
- Small footprint makes grill suitable for small work areas

NOTE: Panini Grills cannot be plugged into a regular electrical outlet. They must be connected to a 20-Amp circuit with a NEMA type 5-20R receptacle (shown).
