MPUC-4-I	66"	380
MPUC-5-I	80"	435
MPUC-6-I	94"	515

SPECIFICATIONS

General:

Provide Multiteria Model MPUC-____-I, to be constructed with heavy-duty all-welded stainless steel rigid frame. Countertop to be manufactured with 14-gauge stainless steel with 1½" top turn-down. All welds to be ground and polished to provide #4 finish. Counter to have easily removable stainless steel front/end panels. Fold-down 12" wide stainless steel tray slides (optional) are full-length with triple 'V' ridge top surface, and are removable without tools. UL listed electrical and sanitation.

Body Frame:

Core and shell is 100% stainless steel structural channel supports, all TIG welded in place, no rivets or fasteners. Body frame is designed to accept optional TIGHT LINK™ (patented) fastening system for multiple counters. Base to be furnished with removable stainless steel undershelf. Undershelf depth to allow 4" clear open space for mechanical connections during installation. Unit has four ea. 6" heavy-duty swivel casters, two ea. with brake.

Front & End Panels:

All stainless steel panels are to be 18-gauge. Optional millwork panels are ¾" thick with standard plastic laminate on front and white laminate interior. Panels shall be removable for service access. Millwork end panels shall be removable without tools.

Food Guard:

Designed for double-sided self-service and includes curved acrylic panels hinged to a powder coated (black color standard) center frame. Hinged acrylic panels lift for easy cleaning access.

Optional TIGHT LINK™ System

Patented system features slide-in panels that link adjacent counters together their entire depth and height to eliminate top, front and rear horizontal and vertical gaps between equipment. Linking panels are open to allow mechanical connections to run through adjoining counters without having to cut access holes, reducing the number of building mechanicals required to connect equipment.

Limited Warranty:

Core and shell has a lifetime warranty against weld or structural support failure.
