## COMMERCIAL ELECTRIC RICE COOKER

**Panasonic**

PREMIUM  
FOOD SERVICE  
EQUIPMENT

### UNIQUE SELLING PROPOSITIONS

#### LARGE CAPACITY, PRECISION CONTROL

40-cup capacity (raw rice) capacity / 80-cup (cooked rice). High-efficiency thermostat maintains cooked temperature for up to 2 hours\*\* to virtually eliminate burning or overcooking. Ideal for restaurants, banquets, supermarkets, catering and institutional applications.

#### ONE-TOUCH START, VERSATILE USE

Cooking starts with the push of a button, and shuts off automatically when done. It can also braise, heat liquids and cook a variety of foods — call or visit our virtual test kitchen for Chef's Technical Support recipes.

#### DIRECT HEATING SYSTEM

Not only does it cook rice but can braise, heat liquids and cook many different items — call or visit our virtual test kitchen for Chef's Technical Support recipes. See website below.

#### STAINLESS STEEL LID, REMOVABLE LINER

Contoured, silicon-sealed lid helps protect against dust accumulation and fungus formation. Includes easy-clean, removable dent-resistant aluminum-alloy pan. Optional non-stick, dent-resistant pan also available.

#### UL AND NSF APPROVED

The durable SR-GA721L has earned safety certification from both Underwriters Laboratories and National Sanitation Foundation for commercial use.

\*168 servings of 3-oz. portions

\*\*Under nominal operating conditions; Ambient room temperature of 70°F with pan covered.
