HMB HOT SB 110

Mibrasa® oven with heated holding drawers and heating rack

FEATURES

OUR CHARCOAL OVENS **hot** WITH HEATED HOLDING DRAWERS

MIBRASA® is a closed grill invented and made in our workshops. Made from the best quality steel by expert hands, our grills are designed to satisfy even the most demanding chefs.

The technical specifications allow the user to accurately control the air flow through the grill, changing the intensity of the embers. This is an extremely efficient way of cooking and cuts down the amount of charcoal needed.

With the HOT series take full control by optimizing the residual heat from the Mibrasa® oven to hold ingredients in three temperature zones on the unit. The seamless lineal design makes the MIBRASA® HOT the most comprehensive charcoal oven station for any chef that prioritizes an effective and cost-efficient kitchen.
