Opening required for installation: 32"	* Handle adds 2.5"(6.4cm) to depth

Digital Electronic Controller

Adjustable Legs

Durable Construction

The CE61BE is built with *prime 20-gauge cold-rolled top and sides* with a 14-gauge base. The *interior is made of Armco Type 1, 20-gauge aluminized steel*. The CE61BE comes standard with stainless steel front, or optional all stainless steel finish. The stainless steel is made of high quality, 18-gauge 430 stainless; the door interior is 18 gauge stainless.

Energy Efficiency

The CE61BE is powered by six 2,000w elements which *increases its efficiency and recovery rate*.

Capacity

The CE61BE deck size measures 42"x32"x7" (2). The CE61BE will hold four 18"x26" bun trays. Cook time will vary according to product.

Space Saver

Because the controls are under the doors, the CE61BE requires *less installation space* than our competition. This enables you to free up valuable kitchen and/or hood space. The actual width needed is mere 50" for two 42"x32" decks, almost a foot less than the competition. The CE61BE *can convert into a CE62BESC by stacking*, either initially or after our business grows. This option gives you four 42"x32" decks in only 56" of space and becomes an SC series oven.

Design Plus

The CE61BE has the *controls in lower front for ease of operation and space savings*. This also places the controls in their own *air-conditioned area* so they are not affected by outside influences.
