

# DURAFINISH TABLE BASES

OUTDOOR

- Specially coated (DURAFINISH) to withstand outdoor conditions
- Constructed of stamped steel for unparalleled strength & stability
  - Superior to cast iron table bases in that stamped steel will not fracture under heavier weights
- Easy two-piece assembly (tube/spider to base)
  - Oak Street uses a short bolt to screw into a welded anchor plate - a much improved method than competitors, which use a long rod that will torque & stretch when force is applied - making it permanently loose
- Spider is welded to the tube for added strength
  - Spider includes 1-3/4" opening to accommodate umbrellas
  - Spider dimensions: 11" x 11" - 15" diagonally
  - Oak Street's spiders are bigger than most competitor's spiders - providing additional strength & durability
- Standard height finishes at 30" with table top attached
- Bar height finishes at 42" with table top attached
