

FFS1175-6G-SS on frame with casters (included)

The FauxFlame Spatchcock is Rotisol's response to commercial needs for performance accompanied by light weight, minimal size, and mobility. FauxFlame Spatchcock rotisserie ovens offer rapid cooking and quality results with the attractive display and mouth-watering aromas that customers love to find in the marketplace.

#### Features:

- Specially designed for cooking spatchcock chicken (butterly)
- Countertop unit
- Infrared roasting with ceramic heating
- High quality stainless steel construction
- 6 spits with a separate motor and burner/heating element for each spit, reducing down time and energy consumption
- 3 spit positions to adjust distance from the heat
- "K" glass doors to prevent heat loss for faster cooking, energy savings, and worker safety
- Powerful halogen lamp (optional)

#### Cleaning/Safety:

- Double interior panel to protect motors and gas lines from grease (motor side)
- Removable interior panel for ease of cleaning (motor side)

#### Ships with:

- Channeled bottom drip pan with drain plug
- 6 spatchcock baskets spits

***When it comes to rotisseries,  
Rotisol is the ultimate partner!***

**WARRANTY CONDITIONS:**

Rotisol warrants its equipment to be free from defects in material and workmanship. Repairs must be performed by an authorized service company and it is the responsibility of the customer to return the defective parts to Rotisol France, inc. within 15 days (otherwise, the warranty will not be honored). The shipping charges for replacement parts, other than ground, will be at the customer's expense. This warranty does not cover glass door breakage and quartz or halogen lamp breakage, neither does it cover non-mechanical parts. This warranty does not apply to damages by accident, incorrect line voltage, fire, water, or other acts of god.
