and laminate
selection sheet

CONSTRUCTION. Heliarc welded, single unit construction shall consist of welded stainless steel base frame of heavy gauge 1" square stainless steel tubing with extra 10 gauge stainless steel caster corner plate reinforcements. Full length, heavy gauge stainless steel angles reinforce front corners of body on inside with high impact edging on outside corners. Work surface shall be constructed of 20 gauge stainless steel. Interior of body shall be lined with 22 gauge stainless steel, bonded to cabinet walls and bottom storage area. Seams shall overlap for greater durability and moisture resistance. Work and splash areas shall be polished stainless steel with easy-to-clean coved corners. Front edge shall have raised marine nosing to contain spills.

FINISH MATERIALS & TOP.

SCB Series: Shall be stainless steel, heliarc welded; ground and polished exterior and stainless steel bar top.

CB Series: Front and side panels shall be high-pressure, dual-side counter-balanced laminate .75" thick finish. Laminate selections are available. Full length, heavy gauge stainless steel angles reinforce front corners of body on inside, with high impact edging on outside corners. Black laminate top with bull-nose rounded corners.

ES-CB Series: Classic raised solid maple wood panels. All wood surfaces finished with polymer coating to deter scratching and gouging. Constructed with reinforced joints for additional strength and durability. Black solid surface top.

AS-BBC Series: Classic raised solid mahogany wood panels, fluted columns, crown molding. Black laminate bar top with an oversized

mahogany wood "Chicago Arm" surround.

Solid brass kick plate provided in front and sides of unit. All wood surfaces finished with polymer coating to deter scratching and gouging. Constructed with reinforced joints for additional strength and durability.

CASTERS. Maintenance free polyurethane tire casters in a configuration of two (2) rigid and two (2) swivel with brake. Eight (8) foot models are equipped with six (6) casters: two (2) rigid casters and four (4) swivel with brake. Casters shall have a reinforced yoke mounted to 10 gauge caster plate. The caster mounting plate shall be secured to a 10 gauge stainless steel reinforcing stress plate via welded in place stainless steel studs. The reinforcing stress plates shall be welded to the heavy gauge tubular base frame.

STORAGE AREA. On all models, the bottom

storage area shall be stainless steel lined.

Provided with one shelf.

BAR ACCESSORIES. Standard equipment shall include 4.25" deep, heavy gauge stainless steel full length bottle speed rail; removable without tools. Towel ring shall be mounted to working side. Stainless steel condiment holder provided.

INSULATED ICE BIN WITH DRAIN. Ice bin with drain shall be one-piece stainless steel with coved corners: 19.75" x 12.75" x 10.5" deep. Ice bin shall have enclosed foam insulation with drain with shut-off drain valve. 8 foot models shall have two (2) ice bins with drains. Ice bin shall have a capacity of 60lbs of ice, and be provided with a stainless steel sliding cover.

INSTALLATION. Unit should not be installed in an area where adverse environmental conditions are present.

DOORS

Locking doors

CASTERS (CB & SCB only)

Larger casters

BUMPERS (CB & SCB only)

Corner bumpers

Full perimeter bumper

Vertical stainless steel corner guards

EXTRAS
