## Non-Stock Products

“Non-Stock” products are products that we will no longer stock. These products can still be ordered. We currently have inventory for many of these items, and if you contact customer service, they can let you know the quantity on-hand. Once the inventory is depleted, there would be a minimum order quantity of over 100 each (to the nearest master case quantity), and the lead time would be 8-10 weeks. Effective February 1, 2016, Non-Stock products are not returnable. Any Non-Stock products purchased before this date are subject to our normal return policy.

Please contact us if you have any questions or concerns regarding Non-Stock products.

Thank you,

EGS Team
