## Hot Food Display Cases

### FEATURES & BENEFITS

**Increased Storage Capacity:** Designed to accommodate standard size food pans, the High Capacity Hot Food Display Cases (HFDH & HFDHC) will meet your needs whether you use full size, half size or bun pans. Fits 3 wide or 2 lengthwise, full size pans across all shelves/selling surfaces.

**Shelf Configurations:** 2 adjustable shelves can be arranged to hold products of varying size. The HFDH provides a total of 3 selling surfaces and over 14 cubic feet of product space.

**Food Timers:** 12 multi-selection, adjustable timers 30 minutes - 4 hours (in 30 minute increments).

**Flexible Temperature:** 6 heating zones can be individually adjusted to the various products being held.

**Front or Rear Mount Controller Option:** The HFDHC Combo-Serve can be purchased with the controller mounted in the front or mounted in the rear. The front mount controller is concealed behind a pull down panel. Please consult current pricing sheet for specific model numbers.

**Attractive:** Xenon light bulbs create a well-lit product display for maximum customer appeal.

**Serving Ability:** The HFDHC's swing open front doors and sliding back doors make the case perfect for rear or front load self serve applications. The HFDH has two sliding rear doors for full service applications only.

**High Product Capacity & Marketability:** Fresh, hot food is one of the fastest growing segments for convenience stores. Our newest, high capacity hot food display case was designed to hold standard food pans, straight from the oven. Now there is no need to transfer cooked food items onto smaller display pans! This attractive, high capacity display case has plenty of room for custom graphics, menu boards, or logos that increase aesthetic appeal and "impulse-buy" sales. The HFDH is designed for holding unwrapped or wrapped food and the HFDHC is designed for holding wrapped or boxed food.

### High Capacity Hot Food Display Cases

With the ability to hold 3 full size food pans on each selling surface, the High Capacity Hot Food Cases (HFDH & HFDHC) can meet the demands of the most challenging food service programs.

The new HFDH & HFDHC are almost twice the size of the smaller HFD & HFDC. This increase in size allows you to store a larger quantity and wider variety of food offerings.
